1 NATURE AND CONTINUANCE OF OPERATIONS

Hawthorn Resources Corp., (the “Company”) was incorporated under the Business Corporations Act (British Columbia) (“BCBCA”) on September 8, 2020.

The address of its head office is located at Suite 420-625 Howe Street, Vancouver, British Columbia, Canada V6C 2T6. The Company’s registered and records office is Suite 420-625 Howe Street, Vancouver, British Columbia, Canada V6C 2T6.

The Company’s shares trade on the Canadian Securities Exchange (the “CSE”) under the symbol HWTN.

These condensed interim financial statements have been prepared on a going concern basis in with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business.

The Company’s ability to continue as a going concern is dependent upon its ability to raise funds primarily through the issuance of shares or achieve profitable operations. The Company has incurred losses since inception and has an accumulated deficit of \$712,534. If the Company is unable to obtain additional financing, management may be required to curtail certain expenses. These material uncertainties may cast significant doubt about the Company’s ability to continue as a going concern. The outcome of these matters cannot be predicted at this time. These condensed interim financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

2 BASIS OF PREPARATION

Statement of compliance

These condensed interim financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) and International Accounting Standards (“IAS”) 34 “Interim Financial Reporting” as issued by the International Accounting Standards Board (“IASB”).

This condensed interim financial report does not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the audited financial statements of the Company for the years ended July 31, 2023 and 2022.

Basis of presentation

The condensed interim financial statements have been prepared on a historical cost basis, except for certain financial instruments measured at fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

Use of judgments and estimates

The preparation of these condensed interim financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed interim financial statements and the reported expenses during the period. Actual results could differ from these estimates.

2 BASIS OF PREPARATION (cont'd...)

Use of judgments and Estimates (cont'd...)

Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances, as the basis for its estimates and assumptions. Revisions to accounting estimates are recognized prospectively from the period in which the estimates are revised. Actual outcomes may differ from those estimates under different assumptions and conditions.

The key areas of judgment applied in the preparation of the condensed interim financial statements that could result in a material adjustment to the carrying amounts of assets and liabilities are as follows:

- Going concern

The assessment of the Company's ability to continue as a going concern and to raise additional funding to cover its ongoing operating expenditures and to meet its liabilities for the ensuing year, involves significant judgment based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances (Note 1).

- Exploration and evaluation assets

The recognition of exploration and evaluation assets requires judgment regarding future recoverability and carrying cost. The cost model is utilized and the value of the exploration and evaluation assets is based on the acquisition expenditures incurred. At every reporting period, management assesses the potential impairment which involves assessing whether or not facts or circumstances exist that suggest the carrying amount exceeds the recoverable amount.
